Versus Dr. Pramila Gupta W/o. Dr. A.k. Gupta Consumer Protection Act, 1986 Sections 2 and 21 Medical negligence - Complainant's daughter died due to Post Partum Haemorrhage - Facts are that cesarean operation performed which resulted in bleeding after delivery and later second operation was performed due to which internal organs failed - Death occurred during course of treatment - Complainant filed complaint before District Forum alleging medical negligence - Complaint dismissed - Also, appeal by State Commissioner dismissed - Thus, this revision - Evident from the facts and circumstances, it is clear that the patient was not fit to deliver the child, thereby suddenly developed shock due to PPH - The bleeding was managed properly and patient became under control of complication of PPH - Due to her critical condition, the patient was referred to PMCH for further management - No evidence by complainant to prove that operation was performed negligently or the post operative care was not taken properly - Expert report clearly reveals that there was negligence or deficiency - Held, a medical practitioner is not liable to be held negligent simply because things went wrong from mischance or misadventure or through an error of judgment in choosing one reasonable course of treatment in preference to another - Therefore, negligence not proved - Revision dismissed.

SUPREME COURT OF INDIA Civil Appeal No.6507 of 2009. D/d. 20.4.2022 Dr. (Mrs.) Chanda Rani Akhouri & Ors.

Versus Dr. M.A. Methusethupathi & Ors.

Consumer Protection Act, 1986, Section 23 Transplantation of Human Organs and Tissues Act, 1994, Section 14 - Post operative medical negligence - Whether sufficient on record to show post operative medical jktLFkku jkT; miHkksDrk vk;ksx] t;iqj ifjokn la[k 170@2018 fids'k dqekjh ,oa vU;

cuke Cywe gkWLiHvy] fpMkok ,oa vU;

negligence - Held, both doctors proof brought who recorded their statements on behalf of complainants were not expert doctors in field expressed in of kidney transplantation Merely because they were doctors, what they affidavits filed before Commission cannot be considered as expert opinion - Two experts who deposed on behalf of respondents, were admittedly experts in field - Respondents themselves were expert doctors and qualified Nephrologists Complainants admitted - that patient under treatment of best medical professionals and qualified Nephrologists - Fact that doctors failed to save patient, in itself, cannot be considered to be case of

post operative medical negligence.

Medical negligence - Governing principles - Medical practitioner not to be held liable simply because things went wrong from mischance or misadventure or through error of judgment in choosing one reasonable course of treatment in preference to another.

NCDRC Dr. Ratna Jain Vs Seema Sharma & Anr.

R.P- 2583/2016 R.P- 2585/2016 Order dated 6 December, 2024 The baby was delivered at 10:30 PM. Unfortunately, the newborn neither cried nor responded at birth and was placed in an incubator. The baby was diagnosed with Birth Asphyxia and ultimately passed away after a few months. She thus, filed the present complaint, alleging medical negligence during labour, particularly the use of forceps, which caused injuries and deprived the baby of oxygen. Based on the discussion above, I do not find merit in the Revision of the complainant as the burden of proof for proving negligence is not met. There were clear irregularities with the findings of the State Commission. Therefore, the District Forum order dated 20.06.2011 is reinstated and the complaint against the OP is dismissed.

Appeal No. 2295/SC of 1999-Decided on 20.6.2000 Consumer Protection Act, 1986 - Section 2(1)(g)-Life Insurance- Deficiency in Service - Repudiation of Claim -- Deceased suffering from diabetes not disclosed - Medical certificate produced in support - Entries contradict each other - Certificate has no evidential value - Deceased suffering from liver disease or diabetes, not proved - Repudiation unjust - Corporation liable to pay insured amount along with interest-Grader upheld in appeal.

2010(1) RLW 722 (SC) Kusum Sharma & Ors.

Versus Batra Hospital & Medical Research Centre & Ors. Civil Appeal No.1385 of 2001, decided on 10.02.2010 Consumer Protection Act, 1986, Sec. 2(1) (g) - Medical negligence -- Doctors in complicated cases have to take chance even if the rate of survival is low - Courts have to be extremely careful to ensure that unnecessarily, professionals are not harassed - Following guidelines for the Courts have been laid down to adjudicate complaints against doctors:- If Negligence is a breach of duty or an act which a prudent and reasonable man will not do.

Negligence to be established by the prosecution must be culpable or gross and not the negligence merely based upon an error of judgment

3. Medical professional is expected to bring a reasonable degree of skill and knowledge along with a reasonable degree of care but neither the highest nor the lowest degree of care and competence.

4. A doctor would be liable only where his conduct fell below that of the standard of a reasonably competent practitioner in the field.

5. Difference of opinion cannot be cited as negligence.

6. Just because a professional looking at the gravity of illness had taken a higher element of risk to redeem the patient out of his suffering which did jktLFkku jkT; miHkksDrk vk;ksx] t;iqj ifjokn la[k; 170@2018 fids'k dqekjh ,oa vU;

cuke Cywe gkWLihVy] fpMkok ,oa vU;

not yield the desired result, it may not amount to negligence.

7. Merely because a doctor chooses one course of action in preference to the other one available, he would not be liable if the action chosen by him was acceptable to the medical profession.

8. It would not be conducive to the efficiency of the medical profession if no doctor could administer medicine without a halter round his neck.

9. It is our duty not to harass or humiliate medical professionals so as to allow them to perform their duties without fear unnecessarily and apprehension.

10. Doctors at times have to be saved from such class complaints who use criminal process as a tool for pressurizing them or hospitals and clinics for extracting uncalled for compensation.

11. Doctors are entitled to get protection so long as they perform their duties with reasonable skill and competence and in the interest of the patients.

II (2000) CPJ 345 N.S. SAHOTA Versus NEW RUBY HOSPITAL & ORS.

Appeal No. 357 of 1998-Decided on 26.5.1999 Consumer Protection Act, 1986- Section 15 - Appeal - Section 2(1)(g)- Medical Negligence - Expert Evidence - Burden of Proof - Complaint filed alleging medical negligence - Burden of proving negligence is upon complainant-No expert evidence produced - Complaint Dismissed - Appeal jktLFkku jkT; miHkksDrk vk;ksx] t;ijq ifjokn la[;k 170@2018 fids'k dkekjh ,oa vU;
